Union Jacks Win Two Games from Golden Bears

We had so much basketball here last week-end, that we need four of five columns to carry a report of each game separately, and as space forbids we will make a summary of the games and leave details out.

The main games between the Golden Bears and the Jacks was too much Union Jacks. The forward combination of Kirkham, Fairbanks and O'Brien was too much for the Bears, and when they got back near the baskets, our iron men guards, Nilsson and Rolfsen were right in their way, and when Donny blocked their plays, they wondered where all the arms came from.

In a few words that is about the story of the games. A better crowd of real sports never stepped on the floor than the University team, and despite the fact of playing a losing game all the way through, they never gave up for one minute and they never resorted to anything like dirty work to try and stem the tide. The individual work of the visitors was superb, and they were good in handling the ball, but when it came to combination passing and shooting they were off, and this was the cause of their downfall. However, they are working against a machine in the Jacks that have played together for several seasons, and the University boys, playing their first game together for many of the players, and this point certainly counts heavily in favor of the Union Jacks.

While the score was a little one-sided, the Bears were fighting all the way, and a few minutes relapse on the part of the locals and the score could easily have been reversed.

Glad of course that the locals won both games, the fans were well pleased with the playing and character of the visitors and will certainly be glad to welcome them again.

Earl Zemp and Henry Viney had the whistles for the first night's game, and Earl Zemp and Bruce Galbraith for the second evening's play.

The lineup of the two teams for both games follows:

BEARS:—Henderson, Smith, Shipley, Richards, Rostrup, Moscovitch, Malcolm, Charrington and Wood.

JACKS:—O'Brien, Kirkham, Rolfsen, Nilsson, Nalder, Hague, West and Fairbanks.

In the two games, Anderson, Malcolm and Richards were high scorers for the University and O'Brien, Kirkham, Fairbanks and Hague led the locals.

The first night's score was 60-30 in favor of Raymond, and the second night was 54-30 in favor of Raymond.

IDLERS WIN BOTH THEIR GAMES

By the Idlers winning both their games which were played as preliminaries, Raymond made it two perfect nights at Basketball.

In the league game Friday night between the Idlers, and the hitherto undefeated Lethbridge Y Intermediates, the Idlers turned back their opponents by a score of 55-39, in a game which was featured by a lot of good speedy playing, and a real effort on the part of the visitors to maintain their record of victories, and a great performance by the locals to win.

The outstanding players for Lethbridge were Corenblum and Walker with 10 points each, and for Raymond, Kirkham, Snow and Galbraith led the parade with 16, 18, and 10 points respectively. Snow was simply unbeatable Friday night, and brought the fans to their feet repeatedly.

CAST OF 93 BIG NAMES SETS HOLLYWOOD RECORD IN "ONLY YESTERDAY"

"ONLY YESTERDAY" HAS MORE STAR NAMES THAN ANY PICTURE EVER PRODUCED IN HOLLYWOOD

A GREATER PICTURE THAN "BACK STREET"

This is a year when the customer gets more star names for the price of admission than ever before. Ever since the all-star cast of "Grand Hotel," moving picture studios have centered more and more "name" talent in casts, but Carl Laemmle, Jr., has gone the limit. The cast of "Only Yesterday," coming Next Week to the Capitol Theatre, contains ninety-three names of players known the world over. There never was a picture with such a cast. There probably never will be another one.

John Stahl was given carte blanche to secure just the proper player for every role whether it was important or unimportant. And Stahl is a stickler for the right actor in the right role. In addition to the 93 name parts, Universal used 45-00 extras in "Only Yesterday" to make this picture the actor's and extra's delight. It has kept many a big bad wolf from the actor's door.

In the final scene alone, eighty-seven well known screen players were used. Those who appeared in these final scenes, along with many other supporting players, were Edmund Breese, Ben Bard, Creighton Hale, Natalie King, King, Baggot, William Davidson, Lloyd Whitlock, Virginia Howell, Jason Robards, bringing total cast to 93 Speaking Parts.

Institute Meeting

The January meeting of the W. I. took the form of a social held Jan 11th at the home of Mrs. J. G. Kirkham. The program consisted of readings by Mrs. Webster, Mrs. J. Miller, and Mrs. Leavitt. The last being "To Our President" and composed by Mrs. J. Fisher. Mrs. Hall read the New Year Greetings from the District Director Mrs. Thompson. Progressive table games were played under the direction of Mrs. Leavitt. Prizes were won by Mrs. J. Fisher and Mrs. W. Rouse. Consolation prizes going to Mrs. Wm. Parie and Mrs. Lattman. Lunch was served by Mrs. J. Miller and Mrs. F. Shaw. Twenty ladies enjoyed the afternoon.

The local High School team is playing host to the Lethbridge Collegiate Basketeers, here at the Opera House tonight.

Mart Kenney and his boys will play for a dance in the Opera House Monday night. If you want a good time be there.

Earl Zemp and Harvey Greenway had the whistles for this game.

Saturday evening the Idlers met the Magrath High School and wiped out the sting of a previous defeat to the tune of 42-28. Both teams played some pretty ball, and got a great hand from the fans during their plays. Play was fast and fouls frequent, but good sportsmanship prevailed, and the fouls were unavoidable because of the speed of the game.

Wayne Matkin and Lloyd Dahl had the whistles for this encounter.

C. O. Asplund Heads Board of Trade

The Annual Meeting of the Dominion Day celebration was held in the Town Hall Wednesday evening, January 17th, with a small attendance present due to other engagements of its members, and a change of date which always plays havoc with such meetings.

Following the reading and acceptance of the minutes, the Financial Statement was read by the Secretary, and after a number of questions, and discussion regarding some points was accepted and ordered filed. This report showed a favorable balance both in the General fund, and the Stampede fund, and while the Stampede this year was financial loss, the reserve absorbed this and still left the Board in a good condition to start the coming year.

The President, T. Geo. Wood, read the President's report, and we print it herewith, as the suggestions therein, may provide aims and slogans for other organizations in the town. The report follows:

Presidents Report To the Members of the Board of Trade:

The past year in our own district has produced continued evidence of the stability and progress which has come to the town mainly through the operation of our leading industry. It has been gratifying to see that more homes have been completed, most of them of a modern type, than in any year since 1925 and 1926.

We believe the town of Raymond can look forward to a stable population of around 3,000 people, which would place it among the 8 or 10 larger communities of the province. Every encouragement should be offered to our people to build and settle in the town at least until this population has been absorbed.

The operations of the board of Trade during the last year have been directed toward this end. We should continue to work to make Raymond not necessarily a larger community, but in every respect, a better community in which to live.

Our meetings have been reasonably well attended, and special thanks are due to the program committee for the interesting speakers provided and the intelligent discussions which they have promoted. We remember with pleasure, addresses by Messrs. Blackmore and Low, Palmer and Stacey, and by Senator Buchanan.

The Short Course was a thorough success.

The operation of the Stampede in connection with the

dominion Day celebration was not successful from a financial standpoint, and we recommend that future arrangements be so made that expenses can be reduced at least \$350.00 if a celebration is held.

In our view point the increased population of the town requires certain forward steps to be taken in the very near future. The major problem facing us, is the provision of a proper sewer system. It is understood that at the present time such works might be undertaken with Government assistance.

We urge that this question be agitated to a definite conclusion. Other improvements which should be considered are a moderate sized hotel, and extension of cinder sidewalks and cinder roads throughout the town.

One of the most successful drives was made by the Board in connection with Dominion authorities, first to survey the town buildings and residences, and to suggest beautification and improvements. The people, generally, supported the program. There are, however, still too many disreputable and unpainted, and unsanitary living quarters within the town limit.

We thank all of the officials and committees of the Board for untiring support.

T. Geo. Wood

The election of officers was the next item. The present officials refused to stand for reelection, and in reporting on the ballots, T. O. King, Chairman of the Nominating Committee stated that the opinion was so divided that there was no report to present. It was decided to have Messrs T. O. King, J. W. Evans and D. M. Powell, who acted as third man in the absence of W. C. Stone, withdraw and bring in a list of names for the positions. They returned with the following suggestions, which were unanimously accepted:

President—Chas. O. Asplund
Vice-Pres.—C. D. Compton.
Sec.—Treas.—A. D. Woolley.
Chairman Executive Committee—T. Geo. Wood.

Chairman Program Committee—S. J. May.

Chairman Membership Committee—J. D. Hall.

Chairman Roads Committee—Wm. C. Meeks.

The various members to these Committees will be chosen at a later meeting.

The new officials were given a hearty ovation, and the President C. O. Asplund spoke briefly and called for a motion of adjournment, which was carried.

News Notes

Jack Mehew was in Eastern B. C. on business this week.

C. H. Elder and wife left this morning for a visit with relatives and friends in Spokane.

James S. Anderson spent the week-end in Cardston with his brother John and family.

Sam Dyson and Harry King were in Lethbridge Saturday last, where Harry went on radio business.

Earl and Weldon Bascom and Kay Redd are leaving this week to enter the B.Y.U. at Provo for the remainder of the winter.

S. B. Card took the Midgert Hockey team to Lethbridge Saturday afternoon for a Hockey game.

The Annual Meeting of the Town of Raymond will be held Friday evening, January 26th, at 8 p.m. in the Town Hall. See notice elsewhere in this issue and be there!

The weather has been on excellent behavior for the past two weeks. If it keeps up this way until the middle of March the winter would not seem so long.

Miss Eva Palmer was guest of honor at a surprise birthday party at her home Thursday night when 15 of her friends enjoyed the evening in games, refreshments and stories.

By a recent decision of the Town Council, Ed. Hawk has charge of letting the Town Hall for various meetings, etc. Don't make any appointment without consulting the Chief of Police, or you may be unable to take possession.

Sugar Makers' Ball Is Outstanding Success

Silver Wedding Anniversary Party

The silver wedding anniversary of Mr. and Mrs. Geo. Rasmussen of the O.K. district, was celebrated in Royal style at the School House, when well over one hundred guests from Raymond, Welling, Magrath, and all the neighbors and friends of the ridge country gathered to do honor to this popular couple and their family. The evening consisted of dancing, refreshments and programme numbers between the dances, the following taking part:

Roy (Weary Willie) and John Howard sang several cowboy songs, and in the final one Roy (tied ten knots in the devil's tail).

Howard Rasmussen with his ukelele, showed "How Mama Gets Young and Papa Gets Old."

Story—Mrs. Jas. Hawkins.

Story—Mrs. Crin Turner.

Piano Solo—Mrs. R. S. Orgill.

Two Vocal Solos—I. McBride.

After lunch Mr. and Mrs. Rasmussen were marched to the front of the room to the tune of "Here Comes the Bride," and James Hawkins on behalf of the gathering presented them with a beautiful Casserole a gift of the O.K. and Mammoth people, and a lovely Carving Set, gift of the people from Raymond and Welling.

This was part of the programming George didn't know anything about, although he had a hand in the rest of the evening's fun.

The party broke up shortly after 2 a.m., after everyone, especially the young bride and groom, having a most wonderful time.

News Notes

Mr. and Mrs. A. E. Hancock are spending a week in Stirling with relatives and friends.

DANCE to the music of Mart Kenney and his Merry Men in the Opera House Monday night next. Dancing from 9 till 1 a.m.

Frank Taylor is getting around again now after his attack of pneumonia, but he is not very energetic as yet.

Elders I. B. Roberts and S. I. May were the speakers at the Magrath First Ward Sacrament Meeting Sunday evening last.

India was rocked by an earthquake on Monday and 21 people were killed. A railway station collapsed and people panic stricken, rushed into the streets.

The time switches are being installed at the pump house at the dam now, and in a few more days the water supply will not demand constant attendance.

The Financial statement of the town is published elsewhere in this issue. The attention of the citizens is called to this report, and those interested in civic affairs should study it.

With the Chinook melting quite a little bit during the past week, cattle are able to feed in the fields again, which is a pleasant change for stock, as well as the owners who found the steady cold depleting their store of feed quite rapidly.

Ernest Bennion from Lethbridge, Wm. Valgardson and party from Taber, these being only a few of many that came from outside to join in the fun of the evening.

One of the outstanding social events of the season, and claimed by many as the most successful of its kind ever held, was the Annual Sugar Makers Ball, staged at the Opera House Monday evening, January 15th, when more than 550 people were entertained with program, lunch and dancing during the evening. Decorations were unique, and in keeping with the subject of the evening, featuring sugar heels, (made of paper), sugar bags, and package, decorating walls, windows, lights and stage. The management of the Canadian Sugar Factories had everything planned so there were no misunderstandings nor hitches during the entire evening. As the guests entered the hall they were each given a ticket with a number on, and this was the lunch ticket, so that when certain groups were called, they filed up on the stage and had their lunch while the rest danced.

T. Geo. Wood was Master of Ceremonies, and from the beginning to the end of the evening there was not a dull moment. The program was as follows:

Speech of Welcome—J. W. Evans, who in mentioning a few facts about the last Campaign stated that this year they had made more sugar than was made in the first 4 campaigns of the present Company here in Raymond, and that they had sliced more beets than were sliced in all the years the old Knight Sugar Factory was in operation here.

Saxophone Trio—Milton Strong, Wilford VanOrman and Hyrum Fromm.

Violin Solo—John Liester.

Glow Dance—Jla Hicks, Maurine Redd and Mary Knight.

Occarina Duett—Fritz Gehmlich and Moses Fromm.

Our Own Review—Kay Redd, and as usual Kay had a fund of wit and jollity in the paper that cracked a head here and there, but withal was a splendid review of the activities of the campaign, and of the personnel who were largely to do with it.

Vocal Solo—Jes. McLean.

Banjo Duett—Nephi and Paul Christian.

Following this the Dance Orchestra, Bob Nelson and his Four Aces, tuned up, and started playing, and the Committees on the stage commenced the task of feeding not the five thousand, but the five hundred. They were called up in hundreds, commencing at Number 1, and it was after 12 before supper was finished.

The dance program was mixed up with Extras, which included several Spot Dances and prizes for the spots included Will Pickles, Chocolate Bars, pies of cake, all day suckers, etc., and some of the kids sure seemed to enjoy their suckers.

Seldom has there been a party where a better spirit of sociability and friendliness was in evidence than at the party, and when they had a Mixer Dance, everyone fell into it and followed the directions of the Floor Manager, and nearly everyone on the floor was dancing some of them with partners they had never seen before.

When going home time arrived, the crowd was even reluctant about breaking up, after such an enjoyable time, and all left with the hope that next year's party may be as enjoyable and successful as this was.

People were present from Taber, Barnwell, Lethbridge, the Lethbridge Northern District, and practically all points south and west, several coming from Cardston for the Ball and returning afterwards. Among others we noticed were Mr. and Mrs. A. E. Palmer, Mr. and Mrs. H. Ostlund and Mr. and Mrs.

WOULD IT WORK OUT

We had a suggestion made the other day, that is feasible, and workable if we could get it done. It is to have a weekly entertainment, and to have it accessible, keep a list of coming attractions, and their dates, and make an effort to be made to avoid staging more than one entertainment in one evening. What do you think of it?

Well, or so ago we had a big drawing at the Capital Theatre, an Educational lecture at the High School, and a public meeting at the Town Hall, all the same evening. Some people would have liked to have been at all three places at the same time. This of course could not be done & consequently the crowd was divided so that no gathering had the support that it should have received.

It is too much to expect that all conflict could be avoided. But it is to say that much conflict could be avoided by a little attention on the matter. There is also this thing. When a public function is staged, there is an expense connected with it, which ordinarily remains about the same whether there are 100 or 500 people attending. It seems that if the attendance could be doubled, that the profits, for which most of these events are staged, would be three or four times what they are when we are competing with each other as we occasionally experience here.

Then to, we have the weakness for outstanding attractions on the week-end. Alright, do we need every week-end for ourselves, or could we centralize them one month, and let the other fellow have a go at a week end too.

This could be considered a fall, and either through the Board of Trade, or some other body might be discussed and decided upon. There is nothing wrong with our present way of doing, only that some event which costs real money to put on is scheduled, only to find that

some other big event is coming off the same night. Then the crowd is divided, both parties are disappointed, and naturally there are feelings that would be much better left unruffled.

Anyway what do you think about it?

ALBERTA NEWS BULLETIN

Issued by Publicity Commissioner, Government Buildings, Edmonton, Saturday, Jan. 13, 1934.

MARKETING BOARD ASKED

Urgent demand upon the Federal Government for the information of a national marketing board whose chief function would be to stabilize prices for live stock and its products on a sound economic basis, was made in a resolution passed by the largest conference of live stock interests ever held in the province, at Edmonton on Friday. The conference, which included representatives of every interest connected with the live stock industry, also passed a resolution endorsing the recommendation of the McMillan banking commission, for a system of short term and intermediate credits for farmers and stockmen. The proposal for nationalization of stock yards was turned down, but the conference asked for a review of stock yards operations and the charges made. The gathering was presided over by Hon. Geo. Hoadley, Minister of Agriculture.

CATTLE DISEASE PREVALENT

In some districts in the province there is prevalence of the disease in cattle known as hemorrhagic septicemia, or stock yard fever, according to the provincial veterinarian, who warns owners of cattle to be on the look-out for symptoms of pneumonia or digestive disorders, and to take necessary steps at once to deal with it.

SUGAR BEET CROP

Final figures on the sugar beet crop of southern Alberta show the total yield for 1933 to have been 137,458 tons, from 14,040 acres, or a little less than ten tons per acre. The total paid to farmers for the beets was about 850,000. The amount of sugar manufactured at the Raymond factory in the season just closed was about 45,000,000 lbs., in addition to which there were 32,000 tons of beet pulp.

REGISTERED GARNET WHEAT

The only carload of certified

Garnet wheat seed obtainable in Canada, and possibly in the world, is now owned by the Alberta Department of Agriculture, who obtained it from the grower, Tom Jones, of Trochu. The seed will be distributed in accordance with an approved plan. The seed was in great demand, being bid on by the Soviet Government of Russia, which was just a few hours behind the Alberta Department in the bidding.

Greenhouses in Alberta

Alberta is considerably in the lead of other prairie provinces in the extent to which horticulture is carried on in the operation of greenhouses, according to statistics which have recently been issued from Ottawa. The census taken in 1931 revealed that this province had at that time, some 642,000 square feet under glass in greenhouses not on farms, and in addition some 526,000 square feet under glass in greenhouses found on farms. The value of the business done from these greenhouses, in sale of flowers, flowering plants, vegetables and vegetable plants, was placed at approximately \$800,000. These figures indicate that the greenhouse business in this province is a fairly substantial one.

Improving Hog Production

Those engaged in the promotion of the campaign to improve the quality of hogs produced in the province, are receiving a most encouraging response from the farmers in the central and northern parts where the campaign has been in progress. During the past few months no less than 500 gilts and sows of approved type have been ordered by farmers under both the federal and provincial brood sow policies, of which number some 350 have already been filled. The sows now being put out to farmers under these policies are all bred before hand to high class boars. This promotion work cannot fail to result in a definite swing upwards of the percentage of select bacon hogs produced in the province next season.

News Notes

The Annual Meeting of the Municipal District of Sugar City will be held on Saturday, January 27th. Watch for announcement of details.

Miss Irene Humphries is progressing nicely following her attack of pneumonia, and while not out of danger is making steady improvement.

Step out of fog into sunshine

How many days of your life are lost in the mists of half-health? Half-hearted days are frequently due to common constipation. It clouds your waking hours, takes the sunshine out of living. Yet it can be overcome so easily by eating a delicious cereal.

Tests show that Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid elimination. ALL-BRAN is also a rich source of blood-building iron.

This "bulk" in ALL-BRAN is similar to that in leafy vegetables. How much better than taking patent medicines!

Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Keep on the sunny side of life *K.H. Kellogg*

Lethbridge Experimental Station Weekly Letter

Seed cleaning is now claiming some attention here at the Lethbridge Station and for the letter this week your writer has obtained a line on the very up-to-date seed cleaning machinery that has been installed here during the past year or two. Not only for cleaning seed used on the Station, but the policy is also to make this equipment available to as many farmers as possible for preparing grain for seed or show. Naturally with the communities so wide spread only a small proportion of farmers can be served. However, since the machinery is of a type well suited for community seed cleaning, information regarding it is of general interest and especially where community seed cleaning centres might be organized.

The plant consists first of a very conveniently designed elevator building. The storage bin is easily emptied to the last kernel, after each lot of seed, while with the elevator facilities provided, grain is handled in either bulk or bags.

The principal machines include a Monitor and an Emerson "kicker" or wild oat separator. The Monitor is well known as an efficient grain cleaning mill and the Emerson is an ingeniously designed machine that really does wonders in taking out wild oats. It does not take wild oats from tame and as equipped here at present it does not always take the last few kernels of wild oats from barley. It is, however, amazingly efficient in separating wild oats from wheat when the wheat has first been run through the Monitor and the Emerson is also quite efficient in performing the even more difficult task possibly of separating wheat from barley. The hourly capacity of the plant where grain is run through both the Monitor and Emerson is nearly 40 bushels though the Monitor handles 50 to 60 bushels per hour.

Other equipment includes a power clipper cleaner used mainly for small seeds such as alfalfa, clovers and grasses, a corn sheller and Marot grader. This grader was imported directly from France and is especially useful in preparing samples for show.

Farmers who plan to avail themselves of the seed cleaning facilities offered here are urged to do so at the earliest possible date since there will be little or no time for seed cleaning after spring work starts and this service cannot be promised after the end of March. For wheat the charges run about three cents a bushel and for oats and barley 1 1/2 cents. The charges for small seed is based on time required for cleaning and usually runs about 30 cents an hour. Write or call for an appointment.

RECOMMENDED GRAIN VARIETIES

A large number of grain varieties are grown here for test purposes but actually only a few of these are wholly outstanding and these constitute the standard or recommended varieties. In this connection some observations by Dr. Fairfield, Station Superintendent, are of interest. He states, "Experience has shown that the most suitable wheat for the province south of Calgary is, broadly speaking, Marquis or varieties belonging to the Marquis group such as Red Bobs 222 and Supreme. The only exception to this is in some of the foot hill areas where quick maturing wheat is desired in which case Reward would have a place. Reward possesses a high quality and is a wonderful wheat for exhibition purposes but it has not the yielding power of Marquis and consequently will never replace Marquis where this variety can be ripened satisfactorily."

"With barley Trebi has consistently outyielded all other varieties tested on both dry and irrigated land. It is not however a malting barley and the recommendation up to the present has been to use O. A. C. 21 where a malting barley is desired."

"With oats the Banner variety still holds its popularity for general use, though where extra early sorts are desired Alska or Gopher are used."

News Notes

WILL TRADE—Potatoes for chicken feed. Inquire at the Recorder Office.

FOR SALE—Tamworth Boar, 2 yrs old, about 350 lbs. \$12.00 See G. J. Norton, Magrath.

FOR SALE—Warm six-roomed house with basement on corner lot just three blocks north of the Public School. Two large reservoirs for water, two potato pits, chicken house and cow pen. Large trees and good garden plot. Also seven acres of cow pasture. Will sell 10 acres land with full water rights, all plowed, also 10 acre beet contract. See Paul Nakamura.

The Second Ward Party will be held tonight, and a wonderful time is promised.

The Jacks are taking on the Young Liberals of Lethbridge at Lethbridge tonight. A large crowd of local fans will likely accompany the team.

Mr. and Mrs. A. E. Hancock were in Magrath Tuesday to the funeral of Mrs. Vera Garrett, sister of Mrs. Hancock, who has been ill with dropsy and complications for three years.

Several Magrath people were here for the Basketball game Saturday night when the Magrath High School played the preliminary with the Raymond Idlers.

A. H. Zabriskie was in Edmonton the first part of the week, attending the Convention of the Agricultural Credit Societies of the Province. He was delegate from the Raymond local.

Don't forget the Ice Carnival Saturday night. The local Midgets have a game with Magrath and after that there will be events for everyone. Come out and join in the fun.

Mrs. O. H. Snow, Mr. and Mrs. I. B. Roberts, Pres. H. S. Allen, Arthur Dahl and S. I. May were in Magrath on Sunday, attending the Genealogical Convention held there.

Irene, daughter of Mr. and Mrs. Ross Humphries, was taken to the Lethbridge Hospital Monday noon, suffering with bad case of pneumonia. At last reports she was getting along nicely as could be expected.

The speakers at the Raymond First Ward Sacrament Meeting Sunday evening will be from the Magrath First Ward, and the two Howard boys are singing some songs one of which will be "That Silver-Haired Daddy of Mine," a special request.

ent is seen in the reduction of tuberculosis almost in proportion to the number of sanatorium beds provided. The sanatorium gives the adult a good chance for recovery, and saves the children from the contact which means tuberculosis.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

Revised Schedule For Intermediates

Wed., Jan. 24 -- Stirling at Raymond.
Thurs., Jan. 25 -- Taber at Lethbridge.
Fri., Jan. 26 -- Raymond at Stirling.

CHAIN LETTER

A Recorder reader has asked us to publish the chain letter that appears below. To be frank we do not run to chain letters, but if anyone else does, we do not argue the point with them.

The following letter is said to have been written by Christ. The history of the letter is indeed interesting. It was first found, it is stated, under a stone at the foot of the cross on which Christ was crucified. On the stone was written: "Blessed is he who turns me over." No one knew what this inscription meant until one day when a child turned the stone and discovered the letter. It came into the possession of a man who had been converted and who kept it as a sacred memento of the Saviour. He never prospered and it was plainly stated in the letter that anyone who secured it should have it published or he would have bad luck. The man kept secret the fact that he possessed the letter and upon his death gave it into the safe-keeping of his son and thus the letter was kept in the family for hundreds of years. Early settlers brought it to this country. It was kept a secret by the family while they lived in Virginia, but they never prospered, and ill-luck continually followed them as it did their ancestors, until on the death-bed of the only daughter the letter was turned over to a lady by the name of Mrs. F. M. Townson, who, not wishing to disobey the order of Christ, at once had it copied in the Tribune, of Rome, Ga., some eighteen years ago. So far as known, that was the first publication of the letter. The Citizen, of Dalton, Ga., copied it and Mrs. Wortman, now living in Marion, clipped the article and has had it in her possession a number of years. She never had it published until recently, and states that she had some bad luck while she kept the article, and believed her misfortune all came from the fact that she never gave it out for publication. The letter follows:

"Whoever works on the Sabbath Day shall be cursed. I command you to go to church and keep the Lord's Day holy without any manner of work. You shall not idle or misspend your time in bedecking yourselves in superfluities or costly apparel and vain dressing, for I have ordered it a day of rest. I will have the day kept holy that your sins may be forgiven you. You will not break my commandments but observe and keep them, they being written by my own hand, and spoken with my own mouth. You shall not only go to church yourselves, but also your man servant and your maid servant; observe my words and learn my commandments, you shall finish your labor every Saturday at six o'clock in the afternoon, at which hour the preparation of the Sabbath begins. I advise you to fast five Fridays following, in remembrance of the five bloody wounds I received for you and mankind. You shall diligently and peaceably labor in several vocations when it has pleased God to call you. You shall save one another, and cause them that are not baptized to come to church, and receive that holy sacrament, that is to say, baptism and the supper of the Lord, and be made a member thereof; and in so doing I will give you long life and many blessings. Your land shall replenish and bring forth abundance and I will comfort you in thy greatest temptations, and surely he that doeth to the contrary shall be cursed, and I

will also send hardness of heart upon you and your children, on them till I have destroyed them, but especially on harden goods and cattle and all other worldly employments that I ed and impenitent believers. He that hath given to the poor shall not be unprofitable. Remember to keep holy the Sabbath Day, for the seventh day must be taken as a rest day to myself, and he that hath a copy of this letter written with my own hand, spoke with my own mouth, and keepeth it without publishing it to others shall prosper; but he that publishes it to others shall be cursed of me, and if their sing be as many as there are stars in the sky, and if they believe they shall be pardoned, goodness and prosperity shall be in the house where a copy of this shall be found. My writing and my commandments, I will send my plagues "Finished."

PUBLIC NOTICE

The Annual Ratepayers Meeting of the
Town of Raymond, will be held
**Friday, January 26th, '34
8 p.m. in the Town Hall**

The Auditor's Report will be presented and the Reports of the Mayor and Committee Chairmen given.

O. H. Snow,
Sec.-Treas.

TUBERCULOSIS IN CHILDREN

In the public mind, tuberculosis is regarded as being a disease of adult life. This attitude is quite natural because it is in early adult life that tuberculosis takes its heaviest toll. Nevertheless, tuberculosis is a serious problem at all ages, being responsible for many deaths in all age groups.

Tuberculosis is caused by a germ which invades the body and which may attack any part of the body. The germs as they affect children come either from tuberculosis cattle, thru milk, or from a tuberculous person, through sputum. All danger from bovine tuberculosis is removed when milk is pasteurized, and that is one reason why children should never be fed on raw milk.

Tuberculosis in children is not the same thing as tuberculosis in adults. When a child is found to be suffering from tuberculosis, a careful examination

of the parents and other adults with whom the child comes into repeated intimate contact in the home will nearly always reveal the source as being on unsuspected case of tuberculosis in the home. Tuberculosis is essentially a family disease. It is not that the disease is inherited, but rather that it spreads in the family from one member to another.

Apparently the gravity of tuberculosis in children is in proportion to the opportunity for further infection. By this we mean that if the child is left living in the home where there is an active case of tuberculosis the outlook for the child is bad if not hopeless. If, however, he is removed from further contact, and so does not receive any more heavy doses of tuberculosis germs, the outlook is good.

Practically this means that adults with tuberculosis are responsible for tuberculosis in children. The adult with an old chronic cough may be tuberculous and should be regarded with suspicion until it is proved that his condition is not tuberculosis. No child should be living with an open case of tuberculosis. This means that the case should be placed in sanitarium or else that the young children should be removed from the home. There is no other practical way of protecting the children. The proof of this statement
